# Training Telephone Operators

Telephone operators are selected from better-thanaverage girls.

Not every girl can become a successful operator, There are certain qualifications necessary.

She must be in good health, because the public demands prompt and accurate service. She must be quick and bright, because the public

demands prompt and accutate services She must be of the stundy, dependable kind who work stendily, because the public demands a continuous and dependable service.

She must be enthusiastic, because without it success in any calling is impossible.

The work is pleasant and carries with it many advantages not found in other lines of employment. Experience is not necessary. We maintain a school where girls are given training and are prepared for their regular work under the direction of experts. This makes it easy for the beginners, and relieves: them of the embarrassment of starting in under our familiar conditions and among strangers.

The pay begins as soon as students enter the training school.

Apply to Principal of Training School, Fifth floor, Pioneer Building.

### To stop dandruff and loss of hair

Shampoo with hot water, rubbing thoroughly into the scalp the rich, creamy lather of

# Resinol Soap

so as to soften and stimulate the scalp, to remove the dead akin and cells, and to work the soothing, healing Resinol balsams well into the roots of the hair. Rinse in gradually cooler water, the final water being cold. Dry the hair thoroughly, without artificial heat. This simple, agreeable method almost always stops dandruff and scalp itching, and keeps the hair live, thick and lustrous,

Resinal Sous leaves an attakiness or unpleasant odor in the hair. Used regularly for the toillet, it clears and freshens the complexion wondertaily. Sold wherever toilet goods are tarried. For free sample, write to Dept. S.P., Rusinal, Baltimore, Md.
